

NEA Member Benefits Introduces New Financial Solution for Members

NEA ID Theft Protection Program

Incidences of ID and data theft are escalating rapidly in the U.S., and victims spend hundreds of hours trying to “undo the damage.” That is why NEA Member Benefits and Identity Fraud, Inc. (IFI), a pioneer in providing identity fraud solutions for individuals and businesses, are offering members both resources and discounted services through the **NEA ID Theft Protection Program**.

Members may visit a special online site (www.neamb.com/idfraud) to choose from among five comprehensive protection plans with savings from 15 – 33% off the retail price. Individual plans start at under \$20 per year; family plans are also available. Additionally, members have access to an extensive library of helpful information and tools to educate themselves about identity theft and what steps to take if they have been victimized. Find these materials and resources at the Identity Fraud, Inc. Web Site at www.identityfraud.com/neamb in the *Prevent*, *Prepare* and *Respond* links at the top of the page.
